

Company Profile

Company Profile :

Our manufacturing process of Aluminium seals is done on automatic power press, of which we have 12 of them & 5nos. of plastic Injection molding machine for flip off Seals. We, “Mourya Packaging”, are a renowned manufacturer and supplier of a wide range of Pharmaceutical Packaging seals. These products are widely demanded in the domestic market due to their features such as efficiency, consistent performance and durability. Owing to our ethical business practices and wide availability of products, we have mustered a huge client base all across the nation under the guidance of our mentor, 'Mr. Viral Sadhu ', we have been able to reach the heights of success and develop perfect market understanding. His valued experience in this domain and strong relationship with the trustworthy vendors has enabled us to attain unsurpassed domain success. Our total production capacity is of 5 Lakhs per day

Our Mission

We are on a mission to achieve customer satisfaction by providing them best quality products at best prices within stipulated time period.

Our Vision

To be the world leader in seal manufacturing through constant innovation and customer satisfaction.

Why Us?

Timely Deliveries :

- High speed power presses with multi cavity dyes having tremendous capacity to produce the seals. we have separate lines for the entire major sizes to ensure speed production.
- Direct tie ups with shipping lines for different sectors to get the priorities in vessel berthing. even at the time of lcl shipments we get the priority in delivering the goods.

Pricing :

- Mourya Packaging has done backward integration, so all the process done before seal manufacturing i.e. Die making, tooling and all the processes are done in house, which makes us more competitive than others.

Quality Policy

- As all the initial process are being done in our premises only, so we have better control on every stage of processing the goods.
- We have latest machineries having digital sensors and counters which makes sure that every seal manufactured is as per desired quality and quantity.
- We have different quality testing instruments and sealing machines too to test and control the quality of seals from any deviation

We the Mourya Packaging, have experienced and talented team of engineers, technicians and professionals working with us. With the combined efforts of our team, vision for future and insight in the new developments we are a distinguished manufacturer and exporter of pharmaceutical packaging products and Flip off Seals. Further, the customization solutions offered with our range help us in meeting to the changing need of diverse industries. Our marketing personnel are always available to attend to customers, enquiries for samples, Technical details and to answers all relevant queries. Customers are kept updated on all matters concerning enquiry or orders, dispatch of samples and shipments.
